Cloud-Based SDS Management Software

Quantum's Cloud-Based SDS Management Software provides companies the ability to retrieve information immediately, to revise data as needed, and to search files using keywords via the web or intranet. The software can be tailored to suit your company's needs, and saves your employees from time spent digging through files.

Organizations managing paper-based SDS's spend an increasing amount of time accessing, inspecting, and updating SDS information. This time cost has multiplied with the adoption of **new OSHA standards** which require a whole new set of SDS's in **GHS-compliant format**.

Quantum's Cloud-Based SDS Management Software helps organizations:

- Load, save and print *unlimited* SDS's

- Retrieve and update information immediately

- Search for documents by chemical name, CAS#, manufacturer name, trade name, and more

Use **Quantum's Cloud-Based SDS Management Software** to eliminate unnecessary time spent cataloging and searching for paper SDS's.

About Quantum Compliance

Founded in 1985 by a team of environmental engineering and computer science professionals who "knew there had to be a better way", Quantum's EHS Information Management Systems enable users to effectively store, retrieve, and analyze EHS data.

Quantum offers the most comprehensive EHS compliance reporting system available with three suites: Health & Safety, Material Management, and Environmental Reporting. Dashboard and configurations are included in all suites as standard package. Our cost-effective suites/modules are available individually or as part of the integrated Q-EHS compliance system.

Quantum has conducted more than 100 licensed installations to help corporations increase productivity and profits using information technology to comply with EHS regulations and improve sustainability benchmarks. Our products are installed facility-wide in many Fortune 500 companies throughout the United States, and in the facilities of internationally-based companies globally. In 2015, we're proud to celebrate 30 years of success and we're grateful for the support of clients such as IBM, Seagate, Praxair, International Paint, Akzo Nobel, and many more!
